Poster Presentations

Day Concludes

Award Ceremony

Conference Concludes

## City Attractions

## Venue - Rome, Italy

Rome is without doubt one of the most exquisite cities in the world; every year millions of tourists come from around the world to eulogize the treasures and masterpieces of Roman art and architecture. Rome was the 11<sup>th</sup>-most-visited city in the world and 3<sup>rd</sup> most visited in Europe and the most popular tourist attraction in Italy. The city is one of the world's most triumphant city "brands", both in terms of reputation and assets. Rome is the only city in the world to contain in its interior a whole state; the enclave of Vatican City. Rome has a status of the global city. Rome hosts all the primary institutions of the nation. Many international institutions are located in the city, notably cultural and scientific ones – such as the British School, the American Institute, the Scandinavian Institutes, the French Academy, the German Archaeological Institute – for the honour of scholarship in the Eternal City, and Specialized Agencies of the United Nations.
