

Scientific Program

2nd International Webinar on

Environmental Sustainability and Climate Change

Monday
March 29, 2021

Day 1 - March 29, 2021

STARTS AT BRITISH TIME - 10:00 AM

10:00 - 10:10 Introduction

Oral Presentations

10:10 - 10:35 Elevated CO₂ and increased nitrogen worsen damage caused by aphid pest on wheat
Eva Maria Carreras Navarro, Agriculture Victoria and The University of Melbourne, Australia

10:35 - 11:00 Efficient development of functional composts utilizing spent coffee ground, rice bran and biochar through microbial bioaugmentation
Sung-Cheol Koh, Korea Maritime and Ocean University, South Korea

11:00 - 11:25 Biochar's role in soil health and food quality: A case study of soil microbiome improvement against rot disease with Chinese Panax ginseng grown in a continuously cropped Alfisol
Genxing Pan, Nanjing Agricultural University, China

11:25 - 11:50 Study on the chemical and crystal structure in wood treated by high-intensity microwave
Wang Zhenyu, Chinese Academy of Forestry, China

11:50 - 12:15 Biochar significantly reduced fumigant emissions under field conditions
Qiuxia Wang, Chinese Academy of Agricultural Sciences, China

12:15 - 12:40 Evidences of N₂O emissions in chloropicrin-fumigated soil
Wensheng Fang, Chinese Academy of Agricultural Sciences, China

12:40 - 13:05 Chloropicrin alternated with biofumigation increases crop yield and modifies soil bacterial and fungal communities in strawberry production
Daqi Zhang, Chinese Academy of Agricultural Sciences, China

Lunch (13:05 - 13:30)

Keynote Presentations

13:30 - 14:00 Proso millet (*Panicum miliaceum* L.) as climate-resilient food grains for human health
Dipak Santra, University of Nebraska-Lincoln, Panhandle Research and Extension Center, USA

14:00 - 14:30 Large scale production and field applications of ready-mix recycled aggregate concrete (RAC) for sustainable construction
M Shahria Alam, The University of British Columbia, Canada

Poster Presentations

14:30 - 14:50 Modeling the spatial distribution of grey mullet using fishery and remote sensing data
Teng Sheng-Yuan, National Taiwan Ocean University, Taiwan

14:50 - 15:10 Valorization by acid hydrolysis from three industrial crops (Tagasaste, Leucaena and Paulownia trihybrid)
Susana Lozano Calvo, University of Huelva, Spain

15:10 - 15:30 Health area of LIFE NAdapta Project
Estrella Miqueleiz, Instituto de Salud Pública y Laboral de Navarra, Spain

15:30 - 15:50 Quality of compost from hop biomass related to compost heap preparation
Lucija Luskar, Slovenian Institute of Hop Research and Brewing, Slovenia

Oral Presentations

Scientific Program

2nd International Webinar on

Environmental Sustainability and Climate Change

Monday
March 30, 2021

15:50 - 16:15	<i>Małopolska region's actions towards climate neutrality and air quality improvement</i> Janusz Zyśk, AGH University of Science and Technology, Poland
16:15 - 16:40	<i>In Situ trans esterification of low quality rapeseed in diesel fuel media</i> Migle Santaraite, Vytautas Magnus University Agriculture Academy, Lithuania
16:40 - 17:05	<i>Comparative study of the energetic and reproductive condition of the European pilchard between two nearby water bodies: The Atlantic Ocean and the Mediterranean Sea (South of the Iberian Peninsula)</i> Marta Caballero Huertas, University of Girona, Spain
17:05 - 17:30	<i>Pressure of parasitism, microplastics and thermal regimes on the state of health of European sardine along the Catalan Coast</i> Xènia Frigola Tepe, University of Girona, Spain

End of Day 1 Sessions

Scientific Program

2nd International Webinar on **Environmental Sustainability and Climate Change**

Tuesday
March 30, 2021

Day 2 - March 30, 2021

STARTS AT BRITISH TIME - 10:00 AM

Oral Presentations

10:00 - 10:25	Maltose and totally impermeable film enhanced suppression of anaerobic soil disinfection on soilborne pathogens and increased strawberry yield Zhaoxin Song, Chinese Academy of Agricultural Sciences, China
10:25 - 10:50	Dimethyl disulfide (DMDS) as an effective soil fumigant against nematodes in China Dongdong Yan, Chinese Academy of Agricultural Sciences, China
10:50 - 11:15	Effect of treated wastewater on soil and environment Ajay Singh, Indian Institute of Technology Kharagpur, India
11:15 - 11:40	Bacterial identification in the root of candidate intergeneric hybrid of common bean Dilek Tekdal, Mersin University, Turkey
11:40 - 12:05	Proteomic responses of barley landraces to salt stress at the tillering stage Rahma Jardak, Centre of Biotechnology of Borj-Cedria, Tunisia
12:05 - 12:30	Main sources of dioxins generation at metals thermal treatment Anahit Aleksandryan, Ministry of Environment of the Republic of Armenia, Armenia
12:30 - 12:55	Egyptian standard specifications for drinking water: Parasitic point of view Wafaa Mohamed Abdalla Hikal, National Research Centre, Egypt and University of Tabuk, KSA

Keynote Presentations

12:55 - 13:05	Title: Changing the channel on communicating climate change to the public Anton Holland, NIVA Inc., Canada
13:05 - 13:35	Use of perennial wild food plants to diversify Cambodian agriculture for improved nutrition and income Ricky M Bates, Penn State University, USA

Certificate Felicitation and Closing Ceremony

End of Day 2 Sessions
