Scientific Program

3rd Online International Conference on

Infection Prevention and Control

Day 01-August 29, 2022

STARTS FROM 11:00 AM British Summer Time (BST)

11:00-11:10 Opening Ceremony and Introduction

Oral Presentations

11:10-11:35 Human myiasis in Sub-Saharan Africa: A critical literature and case reports in the last half-century

Binta J J Jallow, Central South University, China

11:35-12:00 Mortality risk and antibiotic use for COVID-19 in hospitalized patients over 80

Rosca Andreea, CHU Amiens, France

12:00-12:25 Molecular characterization of field infectious bursal disease viruses (vIBDV) in northeast of Algeria

Boudaoud Amine, University de Batna1, Algeria

Poster Presentations

12:25-12:40 Is there any correlation between health literacy and mask usage in Hong Kong undergraduate students? A pilot study

Or Pui Lai Peggy, The Education University of Hong Kong, China

12:40-12:55 Omicron COVID variant: Another pandemic condition in India

Dilpreet Singh, ISF College of Pharmacy, India

Oral Presentations

12:55-13:20 Biological preparations based on live cultures of microorganisms to protect and increase crop yields

Iryna Feklistova, The head of the laboratory of Molecular genetics and biotechnology, Belarusian State University, The Republic of Belarus

13:20-13:45 Chlorogenic acid acts upon Leishmania donovani arresting cell cycle and modulating cytokines and nitric oxide *in vitro*

Antara Banerjee, India

13:45-14:10 Cutaneous Leishmaniasis in male school children in the upper and lower dir districts of Khyber Pakhtunkhwa and a review of previous record in Pakistan

Ismail Zeb, Abdul Wali Khan University, Pakistan

14:10-14:35 A comprehensive study of epitopes and immune reactivity among *Plasmodium* species

Meenu Kalkal, ICMR-National Institute of Malaria Research, India

14:35-15:00 Biocide formulation for surface sanitization and protection

Paula V Alfieri, Universidad Tecnológica Nacional, Argentina

15:00- 15:25 Effect of the antibiotic nisin on inhibitory and bactericidal activities of antibiotics used against vancomycin-resistant enterococci

Noha Tharwat Abou El-khier, Mansoura University, Egypt

15:25-15:50 Molecular drivers of multiple and elevated resistance to insecticides in a population of the malaria vector *Anopheles gambiae* in agriculture hotspot of West Cameroon

Tepa Njiguet Gabin Arnaud, University of Yaounde 1, Cameroon

15:50-16:15 IgE a Marker for Disease Progression in Patients with COVID-19

Maria Jose Miguez, Florida International University, USA

Scientific Program

3rd Online International Conference on

Infection Prevention and Control

16:15-16:40 *Diabetes Management and Infection Risk for Spinal Surgery*
Brandon Lucke-Wold, West Virginia University, USA

Keynote Presentation

16:40-17:05 *Nitrogen Catabolite Repression in *Paracoccidioides lutzii**
Vanessa Rafaela Milhomem Cruz Leite, Universidade Federal de Goiás, Instituto de Ciências Biológicas II- ICBII (Campus Samambaia), Brazil

Poster Presentation

17:05-17:20 *School foodservice training approaches: Insights and challenges*
Joel Reynolds, DePaul University, USA

End of Day 1 Sessions, Certificate Felicitation and Closing Ceremony
