

2nd International Conference on

Advanced Nanotechnology and Nanomaterials

October 18-19, 2021 | Rome, Italy

Conference Sessions:

Nanomaterials-2020 is an exciting opportunity to showcase the new technology, the new products of your company, and/or the service your industry may offer to a broad international audience. It covers a lot of topics and it will be a nice platform to showcase their recent researches on Nanomaterials & Nanotechnology and other interesting topics related to the Nanoworld.

- Nano Materials Synthesis and Characterisation
- Pharmaceutical Nanotechnology
- Materials Science and Engineering Physics
- Nanotechnology in Water Treatment
- Advanced Nanomaterials and Nanotechnology
- Carbon Nanotechnology
- Nanotech for Energy and Environment
- Nano Biotechnology
- Nanobiomaterials
- Nanoscience and Technology
- Molecular Nanotechnology
- Nanotechnology Safety
- Nanotechnology in Tissue Engineering
- Nanotechnology in Agriculture and Food Industry
- Graphene & 2D Materials and its Applications
- Nano Computational Modelling
- Nanoengineering
- Nanochemistry
- Nanoparticles and Nanophotonics
- Applications of Nanotechnology and Nanomaterials

To Submit your Abstract Online

Mail to: nanomaterials@coalescemeetings.com

Day 01 | October 18, 2021

Registrations

Keynote Forum

Group Photo

Network & Refreshments Break

Sessions Nano Materials Synthesis and Characterisation | Pharmaceutical Nanotechnology | Materials Science and Engineering Physics | Advanced Nanomaterials

Lunch Break

Sessions Carbon Nanotechnology | Nanotech for Energy and Environment | Nano Biotechnology | Nanobiomaterials

Network & Refreshments Break

Sessions Nano Toxicology | Nanophotonics Molecular Nanotechnology | Nanotechnology Safety

Day Concludes

Day 02 | October 19, 2021

Registrations

Sessions Nanotechnology in Tissue Engineering | Nanotechnology in Agriculture and Food Industry | Nano Fluidics

Sessions Nano Computational Modelling | Nanoengineering | Nanotechnology in Water Treatment

Network & Refreshments Break

Sessions Nanochemistry | Nanoparticles | Applications of Nanotechnology and Nanomaterials

Lunch Break

Sessions Graphene & 2D Materials and its Applications | Materials Science and Engineering Physics | Nanoengineering

Network & Refreshments Break

Poster Presentations

Day Concludes

Award Ceremony

Conference Concludes

City Attractions

Venue - Rome, Italy

Rome is without doubt one of the most exquisite cities in the world; every year millions of tourists come from around the world to eulogize the treasures and masterpieces of Roman art and architecture. Rome was the 11th-most-visited city in the world and 3rd most visited in Europe and the most popular tourist attraction in Italy. The city is one of the world's most triumphant city "brands", both in terms of reputation and assets. Rome is the only city in the world to contain in its interior a whole state; the enclave of Vatican City. Rome has a status of the global city. Rome hosts all the primary institutions of the nation. Many international institutions are located in the city, notably cultural and scientific ones – such as the British School, the American Institute, the Scandinavian Institutes, the French Academy, the German Archaeological Institute – for the honour of scholarship in the Eternal City, and Specialized Agencies of the United Nations.
