Scientific Program

2nd Webinar on

Plant Science & Genomics

Thusday April 29, 2021

11:10 - 11:10 Introduction Keynote Presentation		Day 1 - April 29, 2021
11:10 - 11:40 Genome-Wide Identification of Quantitative Trait Loci for Grain Size and Weight in Rice Oral Presentation Suitability of Miscanthus x giganteus for enhancing the low-quality soils and remediating contaminated agricultural lands Karim Suhail Al Souki, Jan Evangelista Purkyne University, Czech Republic Photosynthetically controlled spirulina inhibits TNF-a secretion: Potential implications for COVID-19-related cytokine storm therapy Dorit Avni, Kiryat Shemona, Israel Signal transduction regulations in response to UV-B light in date palm shed a compenensive light on the plant resistance Elsayed Nishawy, Egyptian Deserts Gene Bank, Egypt Lunch (12:40 - 13:20) Keynote Presentation 13:20 - 13:50 Insights on Sustainable Nano-enabled Approaches in Agriculture and Food (Agri-food) Loo Say Chye Joachim, Nanyang Technological University, Singapore Oral Presentation Heavy metals contamination in fish Heba Hassan Mahboub, Faculty of Veterinary Medicine, Zagazig University, Egypt Genotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain 14:30 - 14:50 A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation Cudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badiji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University of Agronomy and Life Sciences, Hungary Oral Presentation Insights on Such Active in Presentation Total Presentation Miritable Programma Program	11:00 - 11:10	Introduction
Oral Presentation 11:40 - 12:00 Suitability of Miscanthus x giganteus for enhancing the low-quality soils and remediating contaminated agricultural lands Karim Suhail Al Souki, Jan Evangelista Purkyne University, Czech Republic Photosynthetically controlled spirulina inhibits TNF-a secretion: Potential implications for COVID-19-related cytokine storm therapy Dorit Avni, Kiryat Shemona, Israel Signal transduction regulations in response to UV-B light in date palm shed a comprehensive light on the plant resistance Elsayed Nishawy, Egyptian Deserts Gene Bank, Egypt Lunch (12:40 - 13:20) Keynote Presentation 13:20 - 13:50 Insights on Sustainable Nano-enabled Approaches in Agriculture and Food (Agri-food) Loo Say Chye Joachim, Nanyang Technological University, Singapore Oral Presentation 14:10 - 14:30 Genotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius 14:50 - 15:10 Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius 15:10 - 15:25 Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvarar Parilova, North-Eastern Federal University, Russian Federation Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University of Agronomy and Life Sciences, Hungary Oral Presentation Insights on Sustainable Announce of Presentation Total Presentation Miritary Amiritary Sustainable Research University of Regronomy and Life Sciences, Hungary Oral Presentation Miritary Amiritary Sustainable Research Programmy and Life Sciences, Hungary Oral Presentation		Keynote Presentation
Suitability of Miscanthus x giganteus for enhancing the low-quality soils and remediating contaminated agricultural lands Karim Suhail Al Souki, Jan Evangelista Purkyne University, Czech Republic Photosynthetically controlled spirulina inhibits TNF-α secretion: Potential implications for COVID-19-related cytokine storm therapy Dorit Avni, Kiryat Shemona, Israel 12:20 - 12:40 Signal transduction regulations in response to UV-B light in date palm shed a comprehensive light on the plant resistance Elsayed Nishawy, Egyptian Deserts Gene Bank, Egypt Lunch (12:40 - 13:20) Keynote Presentation 13:20 - 13:50 Insights on Sustainable Nano-enabled Approaches in Agriculture and Food (Agri-food) Loo Say Chye Joachim, Nanyang Technological University, Singapore Oral Presentation 13:50 - 14:10 Heavy metals contamination in fish Heba Hassan Mahboub, Faculty of Veterinary Medicine, Zagazig University, Egypt Genotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation 15:10 - 15:25 Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation	11:10 - 11:40	
contaminated agricultural lands Karim Suhail Al Souki, Jan Evangelista Purkyne University, Czech Republic Photosynthetically controlled spirulina inhibits TNF-a secretion: Potential implications for COVID-19-related cytokine storm therapy Dorit Avni, Kiryat Shemona, Israel Signal transduction regulations in response to UV-B light in date palm shed a comprehensive light on the plant resistance Elsayed Nishawy, Egyptian Deserts Gene Bank, Egypt Lunch (12:40 - 13:20) Keynote Presentation 13:20 - 13:50 Insights on Sustainable Nano-enabled Approaches in Agriculture and Food (Agri-food) Loo Say Chye Joachim, Nanyang Technological University, Singapore Oral Presentation 13:50 - 14:10 Heavy metals contamination in fish Heba Hassan Mahboub, Faculty of Veterinary Medicine, Zagazig University, Egypt Genotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation 15:10 - 15:25 Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation 15:55 - 16:15		Oral Presentation
12:20 - 12:20 for COVID-19-related cytokine storm therapy Dorit Avni, Kiryat Shemona, Israel Signal transduction regulations in response to UV-B light in date palm shed a comprehensive light on the plant resistance Elsayed Nishawy, Egyptian Deserts Gene Bank, Egypt Lunch (12:40 - 13:20) Keynote Presentation 13:20 - 13:50 Insights on Sustainable Nano-enabled Approaches in Agriculture and Food (Agri-food) Loo Say Chye Joachim, Nanyang Technological University, Singapore Oral Presentation 13:50 - 14:10 Heavy metals contamination in fish Heba Hassan Mahboub, Faculty of Veterinary Medicine, Zagazig University, Egypt Genotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amilirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badiji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation	11:40 - 12:00	contaminated agricultural lands
12:20 - 12:40 Comprehensive light on the plant resistance Elsayed Nishawy, Egyptian Deserts Gene Bank, Egypt Lunch (12:40 - 13:20) Keynote Presentation 13:20 - 13:50 Insights on Sustainable Nano-enabled Approaches in Agriculture and Food (Agri-food) Loo Say Chye Joachim, Nanyang Technological University, Singapore Oral Presentation 13:50 - 14:10 Heavy metals contamination in fish Heba Hassan Mahboub, Faculty of Veterinary Medicine, Zagazig University, Egypt 14:10 - 14:30 Cenotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation 15:10 - 15:25 Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria 15:40 - 15:55 Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa	12:00 - 12:20	for COVID-19-related cytokine storm therapy
Insights on Sustainable Nano-enabled Approaches in Agriculture and Food (Agri-food) Loo Say Chye Joachim, Nanyang Technological University, Singapore Oral Presentation	12:20 - 12:40	comprehensive light on the plant resistance
13:20 - 13:50 Insights on Sustainable Nano-enabled Approaches in Agriculture and Food (Agri-food) Loo Say Chye Joachim, Nanyang Technological University, Singapore Oral Presentation 13:50 - 14:10 Heavy metals contamination in fish Heba Hassan Mahboub, Faculty of Veterinary Medicine, Zagazig University, Egypt Genotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation 15:10 - 15:25 Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa		
Loo Say Chye Joachim, Nanyang Technological University, Singapore Oral Presentation 13:50 - 14:10 Heavy metals contamination in fish Heba Hassan Mahboub, Faculty of Veterinary Medicine, Zagazig University, Egypt 14:10 - 14:30 Genotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation 15:10 - 15:25 Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa		Keynote Presentation
Heavy metals contamination in fish Heba Hassan Mahboub, Faculty of Veterinary Medicine, Zagazig University, Egypt 14:10 - 14:30 Genotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation 15:10 - 15:25 Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria 15:40 - 15:55 Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation 15:55 - 16:15	13:20 - 13:50	
Heba Hassan Mahboub, Faculty of Veterinary Medicine, Zagazig University, Egypt 14:10 - 14:30 Genotyping of CRISPR Cas9 tomatoes varieties Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa		Oral Presentation
Carlos Vera Anton, University of Queensland, Spain Consumption of high protein foods and their impact on health of Mauritians Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa	13:50 - 14:10	
14:30 - 14:50 Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre, Mauritius A Systematic review of active ingredients and usefulness of dracocephalum kotschyi as traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation 15:10 - 15:25 Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria 15:40 - 15:55 Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa	14:10 - 14:30	
14:50 - 15:10 traditional medicine in iran Faham Khamesipour, Shahid Beheshti University of Medical Sciences, Tehran, Iran Poster Presentation Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa	14:30 - 14:50	Sohawon Hanaa Amiirah, Nutritionist-Dietician, Naturhouse Dietetic Centre,
Climate change Resilience of Indigenous Socio-Ecological systems' (RISE) Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation 15:55 - 16:15	14:50 - 15:10	traditional medicine in iran
Varvara Parilova, North-Eastern Federal University, Russian Federation 15:25 - 15:40 Oudneya Africana R. Br. response to abiotic stresses Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation 15:55 - 16:15 miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa		Poster Presentation
15:25 - 15:40 Sabrina Darem, University of Badji-Mokhtar, Algeria Morphotaxonomical and ploid level revision of Festuca taxa along the DanubeGergels Gergely Pápay, Hungarian University Of Agronomy and Life Sciences, Hungary Oral Presentation miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa	15:10 - 15:25	
Oral Presentation MiR156/SPL12 regulates nodulation and root regeneration in Medicago sativa	15:25 - 15:40	· · · · · · · · · · · · · · · · · · ·
15.55 - 16.15 miR156/SPL12 regulates nodulation and root regeneration in Medicago sativa	15:40 - 15:55	
12:22 - 10:12		Oral Presentation
	15:55 - 16:15	

Scientific Program

2nd Webinar on

Plant Science & Genomics

Video Presentation		
16:15 - 16:30	Probiotics and Metabolic Syndrome Components: A Comprehensive Review on Recent Advances, and Clinical Implications. Marjan Mahdavi-Roshan, Guilan University of Medical Sciences, Rasht, Iran	
16:30 - 16:45	Gastroprotective Effect of Banana Flower (Banana Male Bud) against Indomethacin- Induced Gastric Ulceration in Rats Fatima M Alessa, King Faisal University, Saudi Arabia	
End of Day 1 Sessions		

Friday April 30, 2021

Day 2 - April 30, 2021

Keynote Presentation		
11:00 - 11:30	Controlled release of micronutrients from protein-based matrices to plants Mercedes Jiménez-Rosado, Department of Chemical Engineering, University of Seville, Spain	
	Oral Presentation	
11:30 - 11:50	Neem (Azadirachta indica A. Juss) in crop protection against pests Djouhou Fowe Michelle Carole, University of Yaoundé I, Cameroon	
11:50 - 12:10	Diversity, utilization pattern and representativeness of dye yielding plants in North Western and Western Himalaya, India: an untapped source for Bioprospection Shreekar Pant, BGSB University, India	
12:10 - 12:30	Plant extracts such as insecticides Natale Badalamenti, Pharmaceutical Sciences and Technologies, Italy	
12:30 - 12:50	Nutrients deficiency affects Miscanthus x giganteus physiology and essential metals uptake more intensively than soil contamination Diana Nebeská, Jan Evangelista Purkyne University, Czech Republic	
Lunch (12:50 - 13:20)		
13:20 - 13:40	Trait profiling of white Guinea yam (<i>Dioscorea rotundata</i>) breeding lines using breeding values and genomic estimated breeding values Prince E. Norman, University of Ghana, Ghana	
13:40 - 14:00	Adequacy of calcium intake in Spanish population according age groups Patricia Romero Marco, International Osteoporosis Foundation and National Osteoporosis Foundation, Spain	

Scientific Program

2nd Webinar on

Plant Science & Genomics

Friday April 30, 2021

	Keynote Presentation	
14:00 - 14:30	Future Research in Agribusiness and Food Ferry Jie, Secretary to the CILTA Western Australia Committee, Australia	
	Oral Presentation	
14:30 - 14:50	Production of functional food by application of microparticles filled with bioactive components during the agricultural production Marko Vinceković, University of Zagreb, Croatia	
14:50 - 15:10	An inventory of the types of rodent spread in Houses with a study of external parasites of the most dominant species at Esna area, Luxor Governorate Abd El-Aleem S. S.Desoky, Sohag University, Egypt	
	Keynote Presentation	
15:10 - 15:40	Efficacy, Dosage, Safety, Quality and Taxonomic Identification of Cannabis Damon Giesbrecht, University of Colorado, Canada	
Oral Presentation		
15:40 - 16:00	Antioxidant and antimicrobial activity of Moringa Oleifera leaves growth in Alhasa region in chicken burger Randah M Alqurashi, Department of Food and Nutrition King Faisal University, Saudi Arabia	
Poster Presentation		
16:00 - 16:15	QTL mapping for two fodder quality related key traits in Sorghum (Sorghum bicolor L.) Vinutha K Somegowda, ICRISAT, India	
16:15 - 16:30	Rootstocks shape their microbiome - Bacterial communities in the rhizosphere of different grapevine rootstocks Leonie Dries, Hochschule Geisenheim University, Germany	
Video Presentation		
16:30 - 16:45	Dimethyl disulfide (DMDS) as an effective soil fumigant against nematodes in China Dongdong Yan, Academy of Agricultural Sciences, China	
16:45 - 17:00	Plant Breeding: Genomics &Metabolomics Approach Nergiz Gürbüz Çolak, Izmir Institute of Technology, Turkey	
End of Day 2 Sessions
